

EPA TSCA Section 8 Chemical Data Reporting (CDR) Information for EPA-2022-001825 (DiGregorio Silicon Nitride FOIA)

In reference to the EPA-2022-001825 FOIA request that seeks data provided to the Agency under TSCA Sections 4, 5 and 8 for silicon nitride (CAS # 12033-89-5), EPA has information concerning TSCA Section 8 from its Chemical Data Reporting (CDR) program. Through FOIAonline, EPA provides 2020 CDR information that has not yet published to its public website, but will soon publish. EPA also points the requester to the 2016 and 2012 CDR information that is publicly available through EPA's ChemView site by following these steps:

- Visit ChemView at <https://chemview.epa.gov/chemview>.
- Type in the "12033-89-5" silicon nitride chemical identifier into the Chemical Identifier box.
- Select "Generate Results."
- Link to the "Silicon nitride" result.
- Link to "CDR Summary."
- See 2016 CDR and 2012 CDR information for the chemical in terms of such characteristics as: parent company, site location, production volume, use information, etc.

The CDR has what is referred to as four-year cycles in which the 2020 CDR contains chemical information for the years 2016-2019, the 2016 CDR likewise contains information for the four years prior to 2016, etc. More information regarding the EPA CDR program can be found at <https://www.epa.gov/chemical-data-reporting>.
